SUMMARY

Results-driven PHP Backend Developer focused on building secure, and high-performance web applications. Experienced in backend development, database management, and writing clean, maintainable code. Seeking a remote backend development opportunity where I can contribute to real-world projects, solve technical challenges, and continuously grow as a software developer.

WORK EXPERIENCE

Remote / Freelance

Jan 2023 - Apr 2024

- Developed and maintained dynamic web applications using PHP and Laravel.
- Designed and optimized MySQL databases for efficient data management.
- Debugged and resolved technical issues to improve application performance.

PHP Backend Developer — Digital Studio

Mar 2024 - Dec 2026

- Developed and maintained an e-commerce website using PHP, and MySQL.
- Developed and managed separate Admin and User panels with role-based functionality.
- Built backend functionality for user registration, login, profiles, product management, and order processing.
